MEMORANDUM FOR: Chief, TISD *JWC*

FROM: Chief, TISD/TIB

STATINTL

SUBJECT: Review of contract that we have with [redacted]

STATINTL

STATINTL

1. At your and [redacted] convenience, I would like to hold a meeting concerning the "Computer Programming" contract. The reason for requesting this meeting stems from the unclarified security aspects of [redacted] personnel.

STATINTL

STATINTL

2. As far as security files at P.I.C. are concerned there is no record of anyone being cleared except [redacted] [redacted] stated that [redacted] was cleared for "Secret" although there is no record of this at P.I.C. files. I learned that we were restricted to discussions of past disclosures and should not introduce any new classified material.

STATINTL

3. I would like to ascertain what the extent of past disclosures consists of, and what is embodied in the meaning of "new classified material." I am particularly concerned because I am monitor of this contract and I want to be certain that I understand all the peculiarities of the security problem. I have other technical points, pertinent to the contract that I wish to discuss at the time of the meeting. The technical problems are interrelated with the security problem.
